## BUILDING DETAILS

This Longo's store is already a busy spot, and this concept has only added to the traffic. A ghost kitchen that's not a ghost kitchen, the Kitchen Hub concept has taken off across Ontario.

The other food concepts are all great brands and cover a number of Toronto and the GTA's beloved cuisines.

**Property Details:** Created in 2019 as one of Canada's first virtual food halls, the Kitchen Hub concept provides access to takeout and delivery. The kitchens are all in a back area where each has it's own hood and systems and are part of the conveyor belt line drastically reducing staffing and labour. The front of house is automated with minimal staff to ensure that there are no issues from the belt line to the customer.

The walk-in fridge and freezers are communal with each concept getting its own space and section.
